Classification of categories

To give a clear presentation of the products in the FiBL inputs list they are classified into categories. Please assign your product to a category by finding the corresponding number (left column) and designation (right column) and writing the information in the field "Preferred FiBL category in the Input List" on the form "Application for registration of a fertilizer, fertilizer additive, plant aid, sowing aid or soil additive" (e.g.: "**1-1 Fertilizers rich in Nitrogen (N)**"). Several categories can be specified, please also refer to our scale of fees.

FiBL reserves the right to change the category previous to the publication.
