A2 Role of the submitting company

Please select

- ☒ We are the **owner of the product recipe** and apply for one/several of the services listed under A1.

Please complete Part A to Part C of the application.

- ☒ We are **distributor** of the product, **know the full composition of the product** and apply for one/several of the services listed under A1.

Recipe owner:

Original trade name of the product with

recipe owner:

Please complete Part A to Part C of the application.

Please add Letter of Access/access authorisation, filled in by recipe owner.

- ☒ We are **distributor** of the product, **do not know the product recipe** and apply for one/several of the services listed under A1.

Recipe owner:

Original trade name of the product with

recipe owner:

Please ask the recipe owner/manufacturer to submit Part A and B of this document independently to FiBL. Please complete Part C of the application. Please fill in the application with all information available to you and add the Letter of Access/access authorisation, completed by the recipe owner.

- ☒ We are the **recipe owners** and **do not apply for listing**, but support the application of our distributor.

This is free of charge for our company.

Distributor:

Trade name of the product, as sold by

distributor:

Please complete Part A and Part B of the application as well as the Letter of Access.

Part B - Basic product information and properties of the product

- Part B of the application form concerns the composition and properties of the product.
- If you do not have knowledge on the full composition and product properties/characteristics, this part shall be filled by a third party having access to this information (usually the manufacturer or the recipe owner).
- For all information concerning product composition, FiBL Projekte GmbH will only correspond with the company completing Part B.

BI Description and characteristics of the product

Trade name

Product category

- ☒ Compound animal feedstuff
☒ Mineral feed
☒ Primary feed material or single feed
☒ Additive or supplement for animal nutrition
☒ Pet feed

Further information

- ☒ The feed is administered as bolus.
*Trace element boluses with inert iron for organic roughage eaters are excluded from listing.
Except boluses for reducing milk fever.*

Confirmation and signature for part B

Declaration of assurance of compliance with the applicable criteria

x We hereby confirm, that the product in question (possibly consisting of individual components) complies with the currently valid criteria of the European Input List.

We hereby confirm that suppliers of product/recipe components assured us, that their components comply with the currently valid criteria of the European Input List.

In addition to the criteria defined in the European input List the product does not contain

- Intentionally added ingredients with a particle size of $< 0.3 \mu\text{m}$ (nanoparticles)
- Molasses of conventional origin

Please note: Trace element boluses with inert iron for organic roughage eaters are excluded from listing, except boluses for reducing milk fever.

Addition of microorganisms	x	Yes ¹	x	No
----------------------------	---	------------------	---	----

¹ If so, must be specified under item "2.3 Information on recipe".

We hereby confirm, that the suppliers of the product/recipe components have provided a declaration of assurance that their components comply with the currently valid criteria of the European Input List.

Declaration of assurance of compliance with the "ban on genetic engineering" in accordance with Regulation (EU) No. 2018/848 (organic production) in the currently valid version

- The undersigning person assures that the product in question with the included components does neither contain GMOs nor was produced "from" or "by" GMOs (terms mentioned in Articles 3 and 11 of the Regulation (EU) No 2018/848) and that no information exists which could suggest that this statement is incorrect.
- The undersigning person furthermore confirms that the product in question fulfils the requirements of Regulation (EU) No 2018/848 regarding the ban on the use of GMOs.
- The undersigning person commits to inform FiBL Projekte GmbH, its customers and the relevant control body/control authority immediately if this confirmation is withdrawn or changed or if information becomes known that calls into question the accuracy of this confirmation.
- The undersigning person authorises the control body/control authority responsible for customer monitoring in terms of Article 3 of Regulation (EU) No 2018/848, FiBL Projekte GmbH or by FiBL Projekte GmbH authorised representatives to check the accuracy of this confirmation and, if necessary, take samples for analytical verification. Furthermore, the undersigning person agrees that this task may be assigned to an independent body, which will be nominated in written form by the control body. The undersigning person undertakes to provide any product samples and components of the product required for this purpose upon request by FiBL Projekte GmbH.

This declaration of assurance is valid until revoked.

The undersigning person is liable for the correctness of this declaration.

Declaration of assurance regarding the production site of mineral feed production

We hereby assure that at the production site(s):

Please indicate production location(s):

where the mentioned mineral feed / mineral feed premix produced in accordance with Regulation (EEC) No. 2018/848 is manufactured, no

- Antibiotic growth promoters,
- Coccidiostats or
- Histomonostats are processed.

Compliance with general requirements

The undersigning person confirms that the information given in this form is correct and complete. The undersigning person explicitly confirms that the above product in question may legally be used for the intended and claimed purpose for which it is placed on the market in the context of organic production. Furthermore, the applicant confirms that the product in question complies with the regulations (EU) 2018/848 and (EU) 2021/1165 and general national legal requirements that may become applicable to the product.

The undersigning person moreover ensures that any changes, especially changes in the composition and manufacturing, will be communicated to FiBL Projekte GmbH immediately.

This declaration is valid until revoked by registered mail.

In the case of electronic data transmission, this declaration is valid without a signature. The sending of the data is regarded as confirmation and assurance that the form has been filled in correctly and completely.

It is also regarded as release for processing and publication.

Our General Terms and Conditions apply exclusively. Any contract concluded at an earlier date for the assessment of products for the purpose of inclusion in the list of inputs for organic production shall be invalid.

Confirmation and signature for part C

In case, the undersigning party is the distributor of the product (purchases the product from another company) and does not know the products full composition, the undersigning person assures, that the product will be put on the market without any alteration.

Should the undersigning person suspect or have knowledge that this affirmation is not valid or becomes untrue, the undersigning party is obliged to inform FiBL Projekte GmbH immediately.

The undersigning person explicitly confirms, that the above-named product in question, may be legally used for the intended and claimed intended purpose for which it is placed on the market in accordance with general EU and national requirements and in the context of organic production. Furthermore, the applicant confirms that the product in question complies with the regulations (EU) 2018/848 and (EU) 2021/1165 and general national legal requirements that may become applicable to the product.

This confirmation is valid until revoked by registered mail, but at least for the entire period of validity for which listing in the Input List for organic production has been granted.

The undersigning person confirms to have understood that FiBL Projekte GmbH may verify the correctness of the information provided. This includes quality assurance measures including product analysis (e.g., related to the presence of unauthorised substances). The analyses are carried out anonymised by an independent, accredited laboratory selected by FiBL Projekte GmbH. To that end, the undersigning person commits to provide product samples and components of the product upon shortest possible delay at any time.

This confirmation is valid until revoked by registered mail. The undersigning person is fully liable for the accuracy of the information provided.

In the case of electronic data transmission, this declaration is valid without a signature. The sending of the data is regarded as confirmation and assurance that the form has been filled in correctly and completely.

It is also regarded as release for processing and publication.

Our General Terms and Conditions apply exclusively. Any contract concluded at an earlier date for the assessment of products for the purpose of inclusion in the list of inputs for organic production shall be invalid.
